

## INFORMATION LITERACY

Information literacy is an essential, transferable skill that students need to successfully navigate personal decisions, their academic careers, and workplace challenges. The amount of information available online and in print is increasingly overwhelming. With information literacy skills, students will be able to navigate the complex information landscape to solve problems and make informed decisions. The information literate individual is able to identify their information need; access, search for, and evaluate the relevant information; and share their findings responsibly.

- Why Information Literacy Matters
- Types of Sources
- Understanding Scholarly Material
- Search Techniques and Tools
- Information Management
- Preservation and Ethical Management of Data
- Why Citations Matter
- APA, MLA, Turabian Citations
- Other Citation Styles
- Academic Integrity
- Legal Issues

### CONTENT DESIGN

Content developed using a backwards design process

Mapped to the following Key Outcomes and Standards

- AAC&U Information Literacy Rubric
- ACRL Framework
- SCONUL 7 Pillars of Information Literacy

### VIDEOS

- 20 videos
- 64 minutes of total video

### ASSESSMENT BANK

- 300 questions
- We offer constructed-response and selected-response assessment questions

### AVERAGE SEAT TIME

30-60 minutes per topic
